Reviewer overall recommendation

Considering the proposal as a whole, do you think FSC should fund this project as a worthwhile contribution to the skills ecosystem?

Overall Recommendation:

- I recommend this project for funding
- I recommend this project for funding conditional on changes and/or more information
- I do not recommend this project for funding

Explain your reasoning for this recommendation.

I understand that their first project with FSC focused on building inclusive leadership capacity for managers and immigrant professionals, but had a difficult time understanding how they will focus on organization cultural change with using a train the trainer model. I also want to learn more about how they will measure their impact, what accountability frameworks will they use to ensure that senior leaders will commit to making change that will influence the upward pathways and inclusion for racialized immigrants working in their organizations. What specific sectors will they be focusing on to build partnerships with employers for their program?

What do you think are the strongest aspects of this project?

They have such a large network and proven research, and projects that support their vision and ideas. They have developed a great initial pilot project to understand the realities, experiences and needs of managers and immigrant professionals and barriers that hinder their growth, learning and development.

Where do you think the project has gaps or challenges?

EDI is simply not enough in how they talk about racialized immigrants, and they need to bring an intersectional framework and analysis in understanding the realities of gender, disability, sexuality, etc. When they are talking about professional/skilled immigrants - who are they focusing on beyond just race? What will accountability look like for these organizations that commit to making change? We have a history of pledges/commitments from organizations across Canada related to EDI efforts and little has been done to move the needle for change. I am not clear on their impact with creating learning/engagement opportunities for senior leadership and HR.
